A classic in a modern key.

Immersed in the suggestion of the crown of hills surrounding the Gulf of Salò, on the border with the Valtenesi, an area of great environmental value and renowned wine production, we found an old farmhouse which can be accessed along a magnificent private road that winds alongside to a stream, crossing a wood. An ancient structure that develops over two floors is now for sale. Formerly used both as a home and as a shelter for livestock, it has now been reborn through a project of great versatility, which includes five apartments for summer rental but which can be configured as a single-family manor house or as a home for two nuclei. The design has been studied in every detail by intuiting the future realization of a superb classic building revisited in a modern key through the use of large windows that allow you to enjoy the view of nature and glimpses of the lake. The location of the swimming pool has been designed to be implemented in a privileged position with maximum exposure to the sun and with a view of a scenario including the lake and the gentle rolling hills. The project, already approved, currently envisages construction in compliance with the conservative constraint that characterizes the building, confirming a surface area of approximately 500 m². and includes balconies, terraces, loggias, mezzanines and other accessory rooms. The garage of the structure is of approx. 150 approx. making it suitable for accommodating a considerable number of cars.

The request for the property with the approved project and sqm. 5000 approx. of land is 950,000 euros

The request, to be understood separately from the price of the farmhouse, for the plot of land of approx. 12,000 approx. with destination olive grove in production (number of olive trees 300), easily accessible by agricultural vehicles and served by well water is 350,000 euros.
